

Economic Development Survey

The Economic Development Committee was created to assist the Village in retaining and recruiting local businesses, residential housing developments, and other similar investment opportunities. The committee will assist with recruiting businesses to enhance local employment opportunities, identify grants to help support or expand local programs and business districts, and review the Villages policies, procedures, and ordinances to support a healthy and diversified economy and community. The committees' work should support businesses and developers with a positive atmosphere to locate, innovate, grow and prosper within the community.

The EDC would appreciate your feedback on the below questions:

1. What does our community need more of?
 - a. Residential housing – single family / apartments / condos / duplex / senior living (55+) / assisted living

 - b. Commercial – small business / large business

 - c. Other?

2. Would you like to see the existing downtown sections in Salem Lakes revitalized? If so, what and where?

3. The Comprehensive Plan has highway 50 and highway 83 planned for commercial and residential development. What types of businesses would you be in favor of?
